How you can make a million writing your own e-book

By ANDREW WILSON (the author hoping to sell a million of his own) UPDATED: 21:37 GMT, 24 September 2011

Got a book in you? Forget rejection letters or 'vanity' operations – in today's golden age of e-readers, you can just e-publish and be damned

* I do not know much about our (MSGA) competition, but coming from technology background, I personally feel our sifus, Mr. Sam and Master Shio have come out with a brilliant architecture at a very affordable price to accomodate all level of writers and bussiness owners.

Lets put our positive energy in building the empire as one team and move and shake thingsrather than procrastinating about the competition out there.

Once we are on board a bullet train, we will leave behind negative baggages and noises so far behind because we are too busy building the team and touching peoples lives in a unique way with extraordinary system.

Bismillah and Codspeed.
